Aspect™ 100UCPLUS

Patient Access & Comfort

The Aspect 100UCPlus provides a very large radiolucent imaging area for easy C-arm access and greater anatomical coverage. A 28" wide tabletop and 2" thick, specially constructed tabletop pad provide for minimal x-ray attenuation and maximum patient comfort.

Clinical Versatility

Urological accessories are easily removable so the table can be quickly configured for multi-purpose C-arm imaging or general patient positioning for non-urological procedures.

A removable radiographic cassette tray provides KUB radiography compatibility with mobile x-ray machines, including both conventional film/grid systems and digital detectors.
