

IDI 1000F Flat Panel Suspension System

Manufacturers of Quality Medical Products

IDI 1000F

PRODUCT DATA

Package Includes:

- Mobile gantry and counterbalanced swing arm with 42" sweep radius, 25" vertical travel and $\pm 180^\circ$ rotation
- Anodized aluminum ceiling rails (8'-10") with *Easymount* clip system
- Flat panel array with $\pm 180^\circ$ rotation
- Array includes 2 to 6 display panel mounts with $\pm 10^\circ$ tilt
- Complete installation package; meter box mounts, all mounting hardware and cable management components; brackets, covers and 25' "flexhaust" hose

Enhancements:

- Rail lengths up to 17' - 8"
- X-Y OEM rail adapters with bridge rails
- Custom meter box mounting kits
- Cable carrier kits
- Companion mobile carriages for mounting Lights, Radiation Shields and Injectors and other devices in IDI rails

IDI 1000F Flat Panel Suspension System

The IDI 1000F provides unlimited flexibility in display positioning during imaging procedures. The system features a counterbalanced arm with vertical travel and internal cable routing. A dual-axis flat panel mount permits independent panel mounting and positioning. The IDI 1000F is versatile suspension that can be easily integrated with existing imaging systems requiring two to six panel configurations.

The IDI 1000F is available as a fixed or mobile suspension. The mobile package includes clip-mounted ceiling rails, an Image Diagnostics innovation. The *Easymount* rail system snaps into the ceiling grid and eliminates the need for drilling rails. Rail set up and repositioning is simplified reducing installation time and effort.

Enhancements include: extended length ceiling rails, X-Y OEM bridge systems, cable carrier kits, and supplemental mounting brackets for the installation of a full-range of flat panel devices.

Additional mobile carriages are available in a universal mounting configuration. These additional carriages can be used as a platform to support surgical lights, radiation shields, injectors and other ceiling suspended equipment, providing a complete room solution and consistency of appearance. The IDI 1000F is available in most OEM colors.
